

Board of PTF enlarged

The “Prof. Tielen Fund” Foundation takes care of establishing financial sources to offer young scientist from developing countries the opportunity to attend veterinary congresses in Europe. This attendance gives this young scientist the opportunity to exchange scientific knowledge and to build up a scientific network for future co-operation. The major part of the PTF-activities are linked with the ISAH. (see extended information on the ISAH-website www.isah-soc.org)

The PTF-board was established in 1998 with Prof. Martin Tielen as president and Dr. Paul van Gulick as secretary/treasurer. Due to the age of the founders they looked to enlarge the board to ensure continuation in the future. Therefore the Board Meeting in April 2008 took the decision to extend the board with 3 persons. The board was extended in 2009 again with a young veterinarian. Since that time the Board is composed as follows:

Prof. Prof h.c. Dr. Ir. Martin Tielen, President , em. professor animal husbandry

Dr. Paul van Gulick, treasurer, retired practitioner

Mr. Thies van Gulick, secretary, notary

Ir. Mike van de Laak, vice-president, substitute director Control Union

Ir. Pieter Tielen, member et large , senior purchaser Alfa Delta Compendium

Drs. Hans Zwolschen, member at large, veterinary consultant CeHaVe
